YOU CAN RELY ON**

ABOUT US

As the prices of surgical products continue to skyrocket, surgeons are looking for more cost effective solutions without compromising quality. I established AD Surgical in 2000 to address this need. Since the beginning, our mission at AD Surgical has always been to offer surgical essentials, such as sutures, drapes and gloves, at the best possible prices to our colleagues so that they may enhance productivity and profitability.

We're thankful for over 20 years of successful business in the medical industry. While much has changed over the years, one thing will always remain the same at AD Surgical. That is, we value our customers and employees and hold ourselves to the highest standards. Thank you for your continued support, and we look forward to serving you over the next 20 years and beyond!

Dr. Brian Tang, President

Our exclusive lines of premium products

We offer 4 versions of surgical sutures:

Ultra-fine Needles for Microsurgeries

UNIFY® Ultra-Premium Microsutures

UNIFY® Ultra-Premium Microsutures are made with a special reinforced alloy to resist needle bending and distortion during surgery. Advanced micro taper allows minimal force during tissue penetration. These extra-fine sutures are commonly used in microsurgeries such as nerve repair or microvascular surgeries.

Stays Sharp 3X Longer Than Regular Needles!

UNIFY® Premium+ Surgical Sutures

UNIFY® Premium+ Surgical Sutures offer our highest performing suture needles for the most demanding surgical procedures. Precision Point Needles are electropolished for increased sharpness. Our proprietary UNIALLOY™ reinforced stainless steel and MULTICUT™ needle technology helps maintain sharpness and shape up to 3X longer than regular needles.

Now over 150 choices in 10 suture materials!

UNIFY® Surgical Sutures

UNIFY® Surgical Sutures are top quality sutures at factory-direct prices that are up to 80% lower than our competitors. Made of high grade stainless steel with an ultra-sharp needle point to provide strength, flexibility and atraumatic tissue penetration. With UNIFY® sutures, you'll never choose between price and quality.

Strong needles crafted from 300 series stainless steel!

UNIFY® Veterinary Surgical Sutures

UNIFY® Veterinary Surgical Sutures offer premium quality at affordable prices, designed for the most demanding surgical procedures. Crafted from high-grade 300 series stainless steel, these sutures feature ultra-sharp needle points for exceptional strength, flexibility, and smooth, atraumatic tissue penetration.

Topical Skin Adhesives

GLUSEAL® Topical Skin Adhesives are liquid adhesive bandages intended to cover cuts, scrapes, burns and minor irritations of the skin and protect them from infection. Each 5ml multi-use kit contains enough tissue adhesive for up to 50 applications. Cost-effective for busy surgery practices. Available in multi-use and single-use versions. Made in Canada.

Item # GLU-550
Packing: One Multi-Use Kit (1 x 5ml skin adhesive, 50 x micro-pipettes, 1 x autoclavable tray, 25 x foam tipped applicators)
Price: **\$130.00 /kit**
\$510.00 /case of 4 kits

Disposable Skin Staplers

EASYTAP® Disposable Skin Staplers are lever action staplers with an ergonomic design and strong construction to provide reliable performance during surgery. Each stapler is preloaded with 35 wide (6.5mm x 4.7mm) staples. Individually sealed and sterilized by EO Gas. Made in Korea.

Item # SM-35W
Packing: 6 sealed staplers per box
Price: **\$79.50 /box**
\$312.00 /case of 4 boxes

Suturing Practice Skin Pads

AD SURGICAL Suturing Practice Skin Pads are made from a durable high-grade silicone material that can be sutured repeatedly for practice. Each ultra-realistic pad mimics closely the 3 main layers of the skin (skin/ fat/ muscle) in texture and appearance. Available with or without pre-made wounds. Made in USA.

5" x 7" pad with wounds (no case)

Item # T57-3SWP
Packing: 1 PC
Price: **\$49.00 each**
\$475.00 /case of 10

5" x 5" pad without wound (with case)

Item # T57-Skin
Packing: 1 PC
Price: **\$59.00 each**
\$570.00 /case of 10

Surgical Skin Markers (Violet Ink)

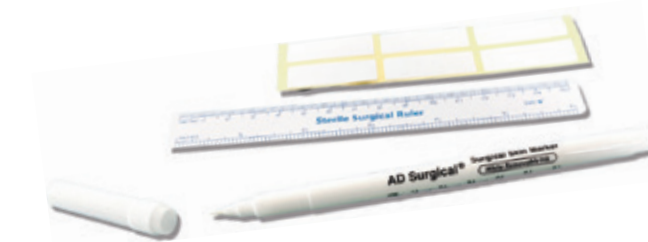

AD SURGICAL Surgical Skin Marker is designed to mark surgical incisions and anatomical sites on a patient's skin prior to surgical procedure to promote correct site surgery. Each sterile and ready-to-use surgical skin marker includes a 6" ruler and 6 blank labels. Two tip sizes available for different user and/or surgical procedure needs. Natural gentian violet plant extract ink is hypoallergenic and non-toxic. For single use only. Sterilized by gamma radiation.

Size	Item#	BOX OF 50
0.5mm Fine Tip	SKM-0005	\$49.50
1.0mm Regular Tip	SKM-1000	\$49.50
0.5mm + 1.0mm Tips	SKM-0510	\$49.50

Aesthetic Skin Markers (Erasable White Ink)

AD SURGICAL Aesthetic Skin Marker has erasable white ink that can be easily wiped off without washing or scrubbing. Ideal for consultation appointments and/or non-surgical aesthetic procedures like Botox®, dermal fillers, Kybella® injection sites, and ultrasonic liposuction. Available only in 1.0mm (Regular) tip. For single use only. Sterilized by gamma radiation.

Size	Item#	BOX OF 50
1.0mm Tip	SKM-WH1000	\$49.50

Cassette Sutures (for VET use only)

UNIFY® PDO Cassette Sutures are high-quality suture thread materials provided in a convenient and economical delivery system. All cassette sutures are intended for veterinary use only. Sterilized by EO Gas.

Absorbable Hemostatic Dressings

BENACEL® Absorbable Hemostatic Dressing is a specially formulated gauze made of biocompatible oxidized cellulose and contains no harmful animal by-products or chemical additives. When applied to a wound, it produces hemostasis almost instantly by forming a gel-like substance upon contact with blood. BENACEL® is used to control bleeding during surgical procedures, or as a topical dressing on superficial open wounds. Made in USA.

Collagen Wound Dressing Pads

Made of 100% bovine collagen, WOUND FREE® Resorbable Collagen Wound Dressing Pads encourage the body to heal wounds quickly and effectively. Once applied to the wound, the collagen dressing forms a soft and comfortable gel on contact with the fluid that promotes healing throughout the day. The dressing can be precisely rolled or trimmed to fit the size of the wound. For medical and dental use. Sterile and for single use only.

# CWD-0505	2"x 2" (5cm x 5cm)	10 PCS / Box	\$75.00
		case of 5 Boxes	\$360.00

Silicone Scar Removal Sheets

WOUND FREE® Silicone Scar Removal Sheets contain medical-grade silicone that helps hydrate scar tissue and mimics the natural barrier function of healthy skin to make scar softer, flatter and less visible. Each self-adherent sheet can last for up to 7-10 days of use. Color: Tan.

#SCS-T1R	1.5" x 2.4" (4cm x 6cm)	10 PCS / Box	\$16.00 / box
#SCS-T5R	1.2" x 6" (3cm x 15cm)	10 PCS / Box	\$29.50 / box

Silicone Foam Dressings

WOUND FREE® Sterile Silicone Foam Dressings combine the superior absorption of foam and the gentle adhesion of silicone. The foam pad absorbs large amount of exudates. The silicone adhesive border provides gentle fixation, allowing the dressing to be removed or reapply when needed.

#FMD-S3	3"x3" (7.5cm x 7.5cm)	10PCS/Box	\$18.00 / box
#FMD-S4	4"x4" (10cm x 10cm)	10PCS/Box	\$22.00 / box
#FMD-S6	6"x6" (15cm x 15cm)	10PCS/Box	\$36.00 / box

Adhesive Island Dressings

WOUND FREE® Sterile Adhesive Island Dressing is a gentle soft cloth bordered gauze dressing indicated for wounds with light to moderate exudation. One-step application is an excellent alternative to tape and gauze to help save user time. The non-adherent central gauze pad provides absorption of light to moderate drainage.

#ISD-P0708	2.75" x 3.15" (7cm x 8cm)	55PCS/Box	\$12.00 / box
#ISD-P1010	4" x 4" (10cm x 10cm)	40PCS/Box	\$14.00 / box

Super Absorbent Dressings

WOUND FREE® Sterile Super Absorbent Dressing is a new generation of advanced wound dressing. It can be used as either a primary or secondary dressing with the purpose of using its extremely absorbent core for exudate management. The self-adherent super absorbent polymer dressing core effectively soaks up high amounts of wound exudate from pressure and venous ulcers, surgical incisions, burns, donor grafts and chronic wounds.

Soft Stretch Facial Wraps

AD SURGICAL Post-Op Soft Stretch Facial Wraps by COOL JAW® feature an exclusive, hand-free patented design. Wraps are made with a spandex fabric that is extremely soft on the patient's skin. They feature a continuous outer sleeve that extends cheekbone to cheekbone to ensure full coverage and compression over the surgical area. This sleeve is specifically designed to fit our gel packs and allows patients to easily insert (and replace) gel packs without having to remove the wrap. The wrap features two rows of Velcro closure at the top of the head to provide a universal, adjustable fit.

- 22in x 25in (56cm x 64cm)
- Aperture Size: 2.5in (6cm) Diameter
- Absorbent, Impervious PE/PP Material

Item # **A400-APD**
 Packing: 20 individually sealed packs per box
 Price: **\$30.00/box**
\$345.00 /case of 12 boxes

UTILITY DRAPE WITH TAPE

Sterile Drape with Adhesive Tape

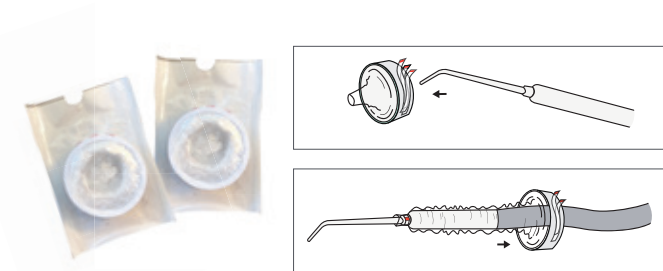

- 22in x 25in (56cm x 64cm)
- Absorbent, Impervious PE/PP Material

Item # **A400-UTD**
 Packing: 20 individually sealed packs per box
 Price: **\$30.00/box**
\$345.00 /case of 12 boxes

Sterile Hose & Cable Covers

EZ DRAPE® Sterile Hose and Cable Covers are user friendly and effective. Simply insert the handpiece or other surgical instrument through the ring and pull the plastic sleeve down. Sterile hose cover helps maintain a clean and safe surgical environment. Individually wrapped and sterilized by EO Gas. Latex free.

Ring diameter: 2.2" Length: 60" long

Item # **A400-1000**
 Packing: 24 individually sealed packs per box
 Price: **\$64.00/box**
\$364.00 /case of 6 boxes

Disposable Isolation Gowns (Level 2)

SUPERFIT® Disposable Isolation Gowns are comply with FDA regulation and provide AAMI level 2 protection. They provide a barrier to larger amounts of fluid penetration through splatter and spray. Latex free. Color: White. Made in Taiwan.

- Universal size (one size fits most)
- Elastic cuffs with tie neck and back closure
- Single use

Item # **GWN-D02**
 Packing: 10 gowns per pack
 Price: **\$69.50 /pack**
\$620.00 /case of 10 packs

Latex Surgical Gloves (Powder-Free)

SUPERFIT® Sterile Latex Surgical Gloves are made from ergonomic molds that help reduce hand fatigue during operation. Powder-free reduces the risk of latex allergy. Straight finger design and wet donning ability make it very easy to don either with dry or damp hands. Each pair of Left/ Right fitted gloves are sealed in a sterile pouch and sterilized by gamma / ebeam radiation.

Available Sizes	Item # for Box
Size 6.0	A520-LTX60
Size 6.5	A520-LTX65
Size 7.0	A520-LTX70
Size 7.5	A520-LTX75
Size 8.0	A520-LTX80

Packing: 50 pairs per box
 Price: **\$49.50 /box**
\$288.00 /case of 6 boxes

Procedural Earloop Masks (Level 2)

SUPERFIT® Procedural Earloop Masks comply with FDA regulations and meet ASTM requirements for level 2 protection. Ideal for procedures where moderate amounts of fluid, spray, and/ or aerosols are produced. Made in Taiwan.

Item # **FMK-50BL**
 Packing: 50 pieces per box
 Price: **\$21.00 /box**
\$720.00 /case of 40 boxes

Nitrile Surgical Gloves (Non-Latex, Powder-Free)

SUPERFIT® Sterile Nitrile Surgical Gloves are specially designed for people with sensitive skin. These hypoallergenic gloves are made from synthetic nitrile rubber that are non-latex and powder-free. The well-designed curved finger and anatomic shape help reduce hand fatigue, and the textured surface in the grip area provides for maximum gripping.

Available Sizes	Item # for Box
Size 6.0	A560-N60
Size 6.5	A560-N65
Size 7.0	A560-N70
Size 7.5	A560-N75
Size 8.0	A560-N80
Size 8.5	A560-N85

Packing: 50 pairs per box
 Price: **\$65.00 /box**
\$378.00 /case of 6 boxes

Sterile Oral Surgery Drape Packs

O-PAK® Sterile Oral Surgery Drape Pack helps maintain a clean and safe surgical environment to prevent postoperative infections and cross contamination. Ideal for dental implant surgery or other aseptic procedures. Simplify procedural setup with 14 essential disposable products included in one convenient package. Sterilized by EO Gas. Latex free.

Each pack contains all the items listed below :
(Items are not sold separately)

- 2 Procedure gowns, universal size
- 2 Facemasks with ties, 2 Bouffant caps
- Absorbent cotton scrub towels, 20 x 40 cm,
1 Surgical instrument tray
- 1 Impervious patient drape with tape,
112 x 152 cm
- 2 Table or mayo stand covers with adhesive tape,
64 x 43 cm
- 1 Absorbent O/R towel
- 1 Saliva ejector, 1 Surgical aspirator tip, 2 Cotton tip
applicators, 25 Gauze swabs
- 4 Light handle/ chair button barrier films
- 1 Medical wrapping sheet, 90 x 90 cm

Item # **A200-3000**

Packing: 6 individually sealed packs per box

Price: **\$120.00 /box**

\$472.00 /case of 4 boxes

Oral Tissue Adhesives

PERIACRYL® Oral Tissue Adhesive is a biocompatible and non-toxic cyanoacrylate tissue adhesive that is useful in securing sutures, stabilizing membranes, covering bone grafting material post-extraction, or dressing donor and recipient sites. Violet coloring allows for better visibility. Available in multi-use and single-use versions. Made in Canada.

Multi-Use Kit (High Viscosity)

Item# **GLU-PERI50**

Packing: 5 ml bottle
50 pipettes + 1 Tray

Price: **\$130.00 /box**

\$512.00 /case of 4

Single-Use 12 Pack (Regular Viscosity)

Item# **GLU-PERI12**

Packing: 12 x (0.2 ml) / box

Price: **\$130.00 /box**

\$512.00 /case of 4

Thermoplastic Surgical Guides for Pilot-Drilling

EZ STENT® Thermoplastic Surgical Guide for Pilot-Drilling is our original patented design that allows fabrication of an accurate surgical guide in minutes using hot water alone. The template has a titanium drill sleeve with inner diameter 2.3mm that is compatible with the pilot drill of most dental implant systems. EZ STENT® should be cold sterilized prior to usage and is for single use only.

SINGLE TOOTH SET

EZ STENT® Single Tooth Set allows accurate preparation of an osseous site in a tooth-bound region. Titanium drill sleeve with inner Ø2.3mm is compatible with the pilot drill of most dental implant systems.

Item # **D015-003-P**

Contents:

- 5 Thermoplastic templates for Single-Tooth sites
- Sleeve height 10mm, sleeve inner Ø2.3mm
- 5 Guide pins (stainless steel), Length 20mm, Ø2.3mm
- 1 Drill for dental laboratory (steel), Ø2.3mm

Price: **\$160.00 /set**

\$560.00 /case of 4 sets

FREE END SET

EZ STENT® Free End Set allows accurate preparation of an osseous site in the most distal region. Titanium drill sleeve with inner Ø2.3mm is compatible with the pilot drill of most dental implant systems.

Item # **D015-004-P**

Contents:

- 5 Thermoplastic templates for Free-End Situations
- Sleeve height 10mm, sleeve inner Ø2.3mm
- 5 Guide pins (stainless steel), Length 20mm, Ø2.3mm
- 1 Drill for dental laboratory (steel), Ø2.3mm

Price: **\$160.00 /set**

\$560.00 /case of 4 sets

2-UNIT BRIDGE SET

EZ STENT® 2-Unit Bridge Set allows the surgeon to accurately locate and drill the holes of two consecutive implants with optimal spacing, angulation and parallelism. Titanium drill sleeves with inner Ø2.3mm are compatible with the pilot drill of most dental implant systems.

Item # **D015-008-2U**

Contents:

- 4 Thermoplastic templates (titanium/ polymer)
- 2 Tooth-Bound and 2 Free End Templates
- Sleeve height 6mm, sleeve inner Ø2.3mm
- 8 Guide pins (stainless steel), Length 20mm, Ø2.3mm
- 1 Drill for dental laboratory (steel), Ø2.3mm

Price: **\$160.00 /set**

\$560.00 /case of 4 sets

Pilot Surgical Drills (for EZ Stent®)

Our Ø2.3mm Pilot Surgical Drills are perfect fit for the EZ STENT® Pilot-Drill Sets. Feature wide-band, easy to see, laser-etched depth markings at 8mm, 10mm, 11.5mm, 13mm and 16mm. Made in USA.

Item # **D015-023L**

Content:

- 1 Long pilot surgical drill
(stainless steel)
Length: 38mm

Price: **\$65.00 /drill**

Item # **D015-023S**

Content:

- 1 Short pilot surgical drill
(stainless steel)
Length: 30mm

Price: **\$65.00 /drill**

Universal Implant Drill Stopper Set

EZ STOPPER® Universal Implant Drill Stopper Set is a set of medical grade, autoclavable silicone tubings. Each tubing can be accurately measured and cut to the desired length in seconds using the built-in lockable metal stop in the autoclavable storage tray. The trimmed silicone stoppers will stretch-fit over most surgical drills to provide precise drill depth control during dental implant placement. Each silicone stopper is color-coded to fit the corresponding surgical drill sizes as follows:

- RED Ø 1.8 – 2.4mm
- GREEN Ø 2.5 – 3.4mm
- YELLOW Ø 3.5 – 4.4mm
- BLUE Ø 4.5 – 5.6mm

Autoclavable

EZ Stopper Starter Kit:

Item #D017-STPS
 Packing: 1 set (includes 4 color coded tubing)
 Price: **\$160.00 /set**

Silicone Tubing Refills:

- Red (Item #D017-STP18)
- Green (Item #D017-STP25)
- Yellow (Item #D017-STP35)
- Blue (Item #D017-STP45)

Packing: 4 PCS per refill pack
 Price: **\$28.00 /pack**

Implant Abutment PTFE Fillers

i-PLUG® implant Abutment PTFE Filler is a semi-soft and packable filler material that can be used to seal an abutment hole. It can also be easily retrieved by our Filling & Removal (FR) Instrument when needed. The one-size PTFE rod (Ø1.8mm x 50mm) can be cut to custom fit the abutment hole of any screw-retained or cement-retained crown. i-PLUG® is fully autoclavable to prevent cross-contamination and to minimize wastage of any unused material.

Autoclavable

Item # D030-050
 Packing: 1 box (of 15)
 Price: **\$49.50 /box**
\$192.00 /case of 4 boxes

Filling & Removal (FR) Instrument

Double-sided instrument with both a plugger end and a barbed retrieval end designed for handling abudment fillers. Made of a surgical grade stainless steel and is fully autoclavable and rust resistance.

Item # D030-017
 Packing: 1 double-sided instrument
 Price: **\$39.50**

AUGMA Degranulation Kit

AUGMA Degranulation Kit is intended for removing granulation tissue before augmentation. Ideal for removing all the remnants of soft tissue which are well attached to the bone and grab them out without harming the bone. The debridement process is done quickly and effectively. Use the bur without irrigation while removing soft tissue and use it with irrigation when grinding bones. Multi-task drills can be used in implantology, periodontal surgery, endodontic surgery, and root removal. The speed can be adjusted according to the kind of the procedure performed hence preventing emphysema. Each kit includes one bur each of the following sizes: 1mm, 2.5mm, 3mm, 3.5mm.

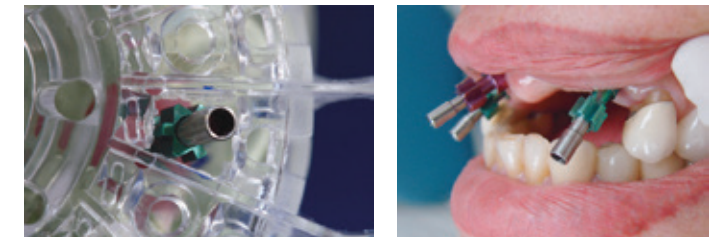

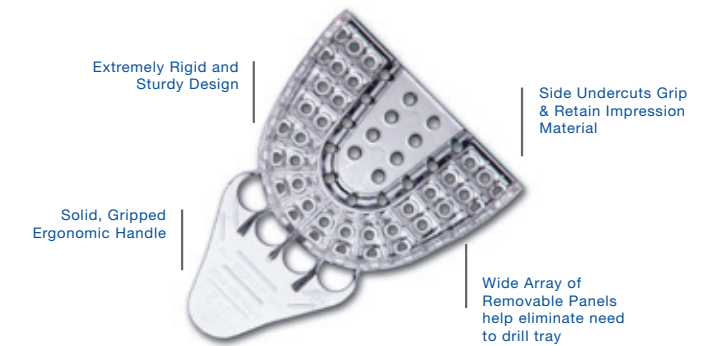

Autoclavable

Item # D035-D-KIT
 Packing: 1 Kit
 Price: **\$230.00 /Kit**

Implant Impression Trays

IMPLANT TRAY® Implant Impression Tray has an innovative patented design that features a wide array of clear and easily removable panels to accommodate open-tray impression techniques. This eliminates guesswork and minimizes time needed to drill out holes in the impression tray. Made in USA.

- Large Upper** Item# D020-U3L
- Medium Upper** Item# D020-U2M
- Small Upper** Item# D020-U1S
- Large Lower** Item# D020-L3L
- Medium Lower** Item# D020-L2M
- Small Lower** Item# D020-L1S

Packing: 12 trays per box
 Price: **\$30.00 /box**

Assortment Starter Package

Item # D020-COMBO
 Contents: 6 of each sizes (Large Upper, Medium Upper, Small Upper, Large Lower, Medium Lower, Small Lower)
 Packing: 36 trays per box
 Price: **\$84.00 /box**

Synthetic Bioactive Bone Grafts

UNIGRAFT® Bioactive Bone Graft is made of a synthetic bioactive glass material. It offers an osteogenic framework for new bone growth and bolsters a higher level of osteoblastic activity to enhance bone regeneration. UNIGRAFT® is completely resorbable and transforms into natural bone with time. Made in USA.

Bone Graft (200-600um)	Packing: 5 vials per box
0.5 gram Item# U03-0105	Price: \$182.00 /Box
1.0 gram Item# U03-0205	Price: \$292.00 /Box
2.0 gram Item# U03-0305	Price: \$384.00 /Box

Mineralized Allograft In Syringes

OSSEOSEAL™ bone in syringe is a mixture of allograft mineralized cortical and cancellous powder in a convenient syringe with a filter cap! Curved syringe for better access to site. The cancellous and cortical blend forms an osteoconductive scaffold providing volume enhancement and effective site development for successful ridge preservation and dental implant placement. Sterile and for single use only.

Bone Graft (250-800um)	
0.3cc Item# OS-03cc	Price: \$44.00 /Box
0.5cc Item# OS-05cc	Price: \$66.00 /Box
1.0cc Item# OS-10cc	Price: \$100.00 /Box

Bovine Bone Grafts

OSSEOSEAL™ Bovine Bone Graft is a xenograft produced by removal of organic components from bovine bone. It provides a supportive structure for osteoconduction. The porous bone mineral matrix has macro and microscopic structures that mimic human bone. The formation and ingrowth of new bone at implantation site is favored, due to its trabecular architecture, interconnecting macro and micro pores.

Powder (200-1000um)	Packing: 1 vial per box
0.5 gram Item# OSX-05CC	Price: \$38.50 /Box
1.0 gram Item# OSX-10CC	Price: \$55.00 /Box
4.0 gram Item# OSX-40CC	Price: \$132.00 /Box

BOND APATITE Bone Graft Cements

BOND APATITE by Augma Materials is a composite graft, made of Biphasic Calcium Sulfate mixed with HA granules in a controlled particle size distribution, intended to fill or augment a broad range of bony defects. It fully resorbs and is replaced by bone during the healing process. It allows minimal invasive surgical procedure, reduced treatment time and easy manipulation of the graft material for the clinician.

Item# HA-BB-PACK
Packing: 1cc Syringe / Box
Price: \$135.00 /Box
\$1080.00 /Case of 8

Mineralized Allograft in Vials

REVOSS™ Mineralized Human Allograft in Vials is a sterile processed human allograft tissue ideal for a variety of surgical applications. It comprises 50/50 mineralized cortical / cancellous bone powder. All tissue was recovered, processed, stored and distributed for use in accordance with the standards of AATB and FDA requirements.

0.25 CC	Item# RB5-1025	Price: \$44.00 /Case
0.5 CC	Item# RB5-1050	Price: \$75.00 /Case
1.0 CC	Item# RB5-1100	Price: \$90.00 /Case
2.0 CC	Item# RB5-1200	Price: \$158.00 /Case
2.5 CC	Item# RB5-1250	Price: \$170.00 /Case

Demineralized Allograft Putty

REVOSS™ Demineralized Allograft Putty is a demineralized bone matrix (DBM) allograft made of donated human tissue. It is packaged in an easy-to-use prefilled syringe for direct application with no need for pre-treatment in a variety of surgical applications. All tissue was recovered, processed, stored and distributed for use in accordance with the standards of AATB and FDA requirements.

Demineralized Allograft Putty in Syringes

0.7 cc	Item# RP2-0070	Price: \$138.00 /Piece
1.0 cc	Item# RP2-0100	Price: \$158.00 /Piece
2.5 cc	Item# RP2-0250	Price: \$370.00 /Piece

Resorbable Bone Substitutes

BICERA® Resorbable Bone Substitute is a bioceramic material that is composed of 60% hydroxyapatite (HAP) and 40% beta-tricalcium (β-TCP). It can be used in common dental procedures such as sinus lifting, periodontal bone fillings, and filling of peri-implant defects. BICERA provides a bone void filler that resorbs and is replaced by bone during the healing process.

Bicera HA/TCP Granule 1-2mm

2cc	Item# BC-G22	Price: \$160.00 /Box
10cc	Item# BC-G07	Price: \$420.00 /Box

Allograft Bone Fiber Plugs

REVOSS® Matrix Bone Fiber Plugs are composed of a human allograft mixture of demineralized cortical bone fiber and mineralized cancellous bone particulates. The unique, compressed cylinder shape of REVOSS Matrix allows for easy insertion and expansion within the bone void, eliminating the need for particulate mixing or membranes to facilitate bone regeneration.

11mm x 7.5mm Bone Insert

Item# RM1-0101
Packing: 1 Piece / Box
Price: \$96.00 /Box
\$470.00 /Case of 5

Attachable Intraoral Wound Dressings

ORA-AID® is an adhesive intraoral patch used to protect a wound such as an extraction socket, tissue grafting & implant site, and ulcers. It is easy to use, just peel off and stick on the wound site. The non-resorbable polymer helps cover the affected area to protect it until soft tissue closes and healing begins.

25mm x 15mm Intraoral Dressing

Item# AG-202A

Packing: 20 Pieces / Box

Price: **\$99.00 /Box**

\$485.00 /Case of 5 boxes

Resorbable Collagen Plugs

HEALIAID® Resorbable Collagen Plugs are designed to deliver dependable wound dressing at extraction and biopsy sites. Shaped for ease of use and compressible to suit open wounds, these resorbable dressings are inexpensive and easy to work with. When used to dress fresh extraction sockets, the collagen plugs protect exposed surfaces from external irritants and further injury. The Type-1 purified bovine collagen is non-pyrogenic, and typically reabsorbed by the body within 2 to 4 weeks after placement. Each collagen plug comes sterile and is ready for use without preparation.

10mm x 20mm Collagen Plug

Item# SA001020

Packing: 10 Plugs / Box

Price: **\$105.00 /Box**

\$515.00 /Case of 5 boxes

Bilayer Collagen Matrix

HEALIAID® Bilayer Collagen Matrix is designed for soft tissue regeneration and sealing extraction sockets in the oral cavity. It is composed of two layers: the dense outer layer provides stability while allowing open healing; the spongy inner layer supports blood clot stabilization and promotes early vascularization and good soft-tissue ingrowth.

The resorbable dressing is indicated for gaining keratinized tissue and for recession coverage. It is also used for sealing extraction sockets with preserved buccal walls, which helps retain bone grafting materials. The collagen matrix provides an alternative to autologous soft-tissue grafts. Painful harvesting of tissue is avoided, benefiting both patients and clinicians.

Small - for sealing extraction sockets

15mm x 20mm

Item# HADB152030-CS

Packing: Case of 5 PCS

Price: **\$300.00**

Medium - for soft tissue regeneration

Item# HADB304030

Packing: 1 Piece / Box

Price: **\$200.00 /Box**

\$980.00 /Case of 5

Resorbable PLA / PGA Barrier Membranes

CYTOFLEX RESORB® Resorbable PLA / PGA Barrier Membrane consists of three integral layers designed to promote gingival tissue attachment and prevent fibroblast down growth. Made of biocompatible poly (lactide-co-glycolide) copolymers, CYTOFLEX RESORB® is non-pyrogenic, non-immunogenic and maintains a barrier framework for over two months after implantation. The resorbable membrane does not require pre-soaking before administration, and completely dissolves within six months. Made in USA.

12mm x 24mm

Resorbable Collagen Membranes

COLLAFLEX™ Resorbable Collagen Membrane is derived from purified porcine pericardium. The non-crosslinked membrane retains the natural microfibril structure of the pericardium, providing excellent biocompatibility and extended barrier function for guided bone regeneration applications. Highly drapable and can be easily fixated with sutures and bone tacks.

ePTFE Barrier Membranes

CYTOFLEX TEF-GUARD® ePTFE Barrier Membrane is a non-resorbable membrane made of microporous ePTFE material. It is designed to resist the penetration of fibroblasts and bacteria, while simultaneously allowing the exchange of interstitial fluids through the membrane. This enhances gingival tissue attachment and provides a favorable protected environment for neo-vascularization and re-population of osteoblasts in the bony defects. Made in USA.

**12mm x 24mm

Titanium-Reinforced ePTFE Barrier Membranes

CYTOFLEX Ti-ENFORCED® Titanium-reinforced ePTFE Barrier Membrane is a multi-layer, non-resorbable membrane. It is a barrier material with a titanium frame enclosed within two layers of ePTFE material. The titanium reinforcement is intended for space and shape maintenance to contain bone grafting material and to minimize graft movement during wound healing. The Ti-Enforced™ membranes are textured on both surfaces to improve handling and adhesion between tissue and membrane. Made in USA.

Sterile Oral Exam Packs

STERILE i-PAK® is an economical 3-in-1 intraoral exam pack that eliminates cross-contamination, improves efficiency and saves on sterilization costs. Each i-pak® includes 1 disposable dental mirror with anti-fog coating and 1 patented disposable double-ended Explorer & Probe. Probe is marked 3-6-9 mm universal style, tapered with round tip for excellent readability and patient comfort. Safe for use on titanium implants. The explorer is made with surgical grade stainless steel with an ultra-sharp tip. Good for routine exam, emergency treatment, off-site visit and high volume oral exam performed by schools, government and other agencies. Sterilized by EO Gas. Latex free.

Item # D002-009-P
Packing: 50 individually sterilized packs per box
Price: **\$86.00 /box**
